Coding Club | Recruitment 2026–27

Join the Coding Club!

Are you passionate about technology, creativity, community building, or organising exciting events? We're looking for enthusiastic students to join our team!

We are recruiting for three roles:

- 🎨 **Design** – Create engaging visuals and build the club's visual identity.
- 📢 **Marketing** – Promote initiatives, manage outreach, and grow our community.
- ⚡ **Events & Operations** – Plan, coordinate, and execute workshops, hackathons, and club events.
- 💻 **Technical Team** – Build projects, solve problems, explore new technologies, and develop innovative technical solutions.
- 🤝 **Outreach & Sponsorship Team** – Build industry connections, collaborate with companies and startups, secure sponsorships, and establish strategic partnerships for Coding Club events.

If you're eager to learn, collaborate, take initiative, and make an impact, we'd love to hear from you!

Questions :

Email

Full Name

College Email Id

Phone Number

USN

Year of Study – 1. 1st yr 2. 2nd yr 3. 3rd yr 4. 4th yr

Branch / Deparment :

Option –

1. extract text and gve me
2. Artificial Intelligence and Machine Learning
3. Computer Science and Engineering
4. Computer Science and Business Systems

5. Electronics and Communication Engineering
6. Electrical and Electronics Engineering
7. Mechanical Engineering

Role Selection: (heading)

Which Role re u applying for?

1. Design team
2. Marketing Team
3. Event & Ops Team
4. Technical Team
5. Outreach & Sponsorship Team

How many clubs or student organisations are you currently a part of? Mention their names and your role in each, if applicable. If none, write N/A.

Why do you want to join the Coding Club, and what makes you interested in being a part of our team?

How many hours per week can you realistically dedicate to Coding Club activities, considering your classes, exams, and other commitments? – options :

1-2 hrs

3-5 hrs

6-8 hrs

9+hrs

Page 3 – if person clicks Design Team in “Which Role re u applying for?”

Design Team (heading)

Have you worked in a design team before?

Yes or No option

Which tools have you used for designing? Options:

1. Canva
2. Figma
3. Adobe Photoshop

4. Adobe Illustrator
5. Haven't used any yet
6. Other: _____

Which of the following have you designed before?

1. Event posters
2. Social media posts
3. Logos or brand identities
4. Presentations
5. Merchandise or apparel
6. Video edits or motion graphics
7. Personal design projects
8. None yet, but I'm interested in learning

Upload one design you've created that best represents your creativity.

With upload option for all types of designs … all images, and other possible file formats … max file size is 15 mb

Upload link of one design you admire, even if you didn't create it. What specifically makes it effective?

Option to add link

Name one brand, designer, or creative account whose visual style you like. What do you like about their work?

Where do you usually find inspiration for your designs?

How do you use AI tools in your design process, and which tools have you used?

How would you maintain a consistent visual identity across posters, ID cards, and merchandise?

You have limited time to finish a poster, an Instagram post, and an ID card. How would you prioritise and manage the work?

What interests you about joining the Coding Club's Design Team, what do you hope to gain from the experience, and how would you contribute to the team?

Page 3 – if person clicks Marketing Team in “Which Role re u applying for?”

Marketing Team (heading)

Which areas of marketing interest you? Options:

1. Social media management
2. Content writing and captions
3. Branding and promotions
4. Community growth
5. Other: _____

What platforms do you use for content creation/marketing?

Do you have any experience in marketing/content creation, Explain in 50 words

If Yes,Kindly attach links to videos of your previous content creation and marketing projects.
What makes you think you should join the MARKETING team specifically?

Imagine we are hosting a hackathon. How would you promote it to increase registrations?

What's one thing you'd change or improve about how the coding club currently operates or promotes itself?

Page 3 – if person clicks Event & Ops Team in “Which Role re u applying for?”

Event & Operations (heading)

Imagine you are managing the registration desk for our flagship hackathon. Fifteen minutes before kickoff, the main Wi-Fi network crashes, and 200 participants are waiting outside. What is your immediate, step-by-step plan to handle the situation?

Coding Club workshops often start with high attendance, but participation drops after a few sessions. Propose one creative, low-budget initiative to keep students consistently engaged and attending our workshops and events.

College life involves balancing exams, assignments, and club events. Describe a time you faced conflicting priorities. How did you organise your time, and how did you respond when things didn't go as planned?

You are paired with a team member who has stopped responding to messages and hasn't completed their assigned event tasks, just 48 hours before the event. How would you handle the situation constructively?

Imagine a high-stakes club deadline is just 24 hours away. Your assigned tasks are complete, but another department, such as Tech, Design, or Marketing, is severely short-staffed, threatening the project's success. You have no prior experience in their domain. How would you respond, and what steps would you take to help the team deliver successfully?

Why do you want to join the Events & Operations Team specifically, rather than the Technical or Design Team? What is one unique event idea you'd love to bring to the Coding Club this year?

Page 3 – if person clicks Technical Team in “Which Role re u applying for?”

Which technical domains are you interested in or have experience with?

1. Data Structures & Algorithms (DSA)
2. Web Development
3. App Development
4. AI / Machine Learning
5. Blockchain / Web3
6. Cybersecurity
7. Cloud Computing / DevOps
8. UI/UX and Frontend Development
9. Beginner – eager to learn
10. Other: _____

Share your GitHub profile URL. If you don't have one, write N/A.

Share your portfolio or personal website URL, if available. Otherwise, write N/A.

If you're interested in Data Structures & Algorithms (DSA), share your coding profiles.Include platforms such as: LeetCode,Codeforces,CodeChef,GeeksforGeeks,HackerRank

Tell us about the technical projects you've built or contributed to. Mention the problem, technologies used, and your role. If you haven't built any projects yet, what would you like to build?

Describe a technical challenge you faced while building a project or solving a coding problem. How did you approach it?

Why do you want to join the Coding Club's Technical Team, and what would you like to contribute?

Page 3 – if person clicks Outreach & Sponsorship Team in “Which Role re u applying for?”

Have you previously worked in outreach, corporate relations, sponsorships, or partnerships? If yes, briefly describe your experience and contributions. If not, write N/A.

Suppose our upcoming hackathon needs a sponsor. How would you identify suitable companies and approach them to secure sponsorship?

Imagine a company hasn't responded to your sponsorship email after a week. What would you do next?

Your task is to contact tech companies and startups and help secure at least one sponsor for an upcoming Coding Club event. How would you plan and execute this task?

Why do you want to join the Outreach & Sponsorship Team, and what skills or strengths would make you suitable for this role?
